MicroLYSIS RNA

Rapid sample lysis & Direct to RT-qPCR

Looking for an alternative to your extraction protocols?
Pressure on time and resources?

MicroLYSIS RNA - designed to release RNA from viral samples with a minimal amount of fuss. Our method is

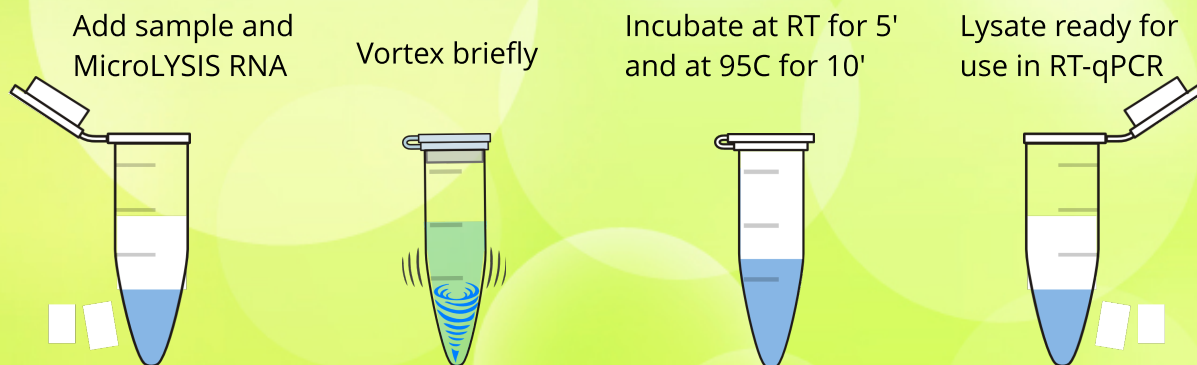

- Quick,
- Simple,
- Effective.

For use with:

- Dry Swabs,
- Viral Transport Medium,
- Saliva.

COVID-19 testing: MicroLYSIS RNA has been validated using MWE Virocult® and Co-Diagnostic's Logic Smart COVID-19 RT-qPCR kit. Without loss in sensitivity when tested using Vircel QC reagents.
